AMEEMA WAHEED

FULL STACK DEVELOPER

Karachi, Pakistan | +92 311 7781239 | amimasheikh4@gmail.com | linkedin.com/in/ameema-waheed-566220282

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing and building responsive, scalable web applications using JavaScript, jQuery, HTML, CSS, Bootstrap, React, and Python. Strong foundation in object-oriented programming, problem-solving, and clean code practices, with a track record of delivering projects across multiple internships and freelance engagements. Skilled at collaborating with cross-functional teams, troubleshooting technical issues, and contributing to fast-paced development environments. Seeking to bring strong technical and analytical capabilities to a Full Stack Developer role.

CORE SKILLS

- Front-End Development: JavaScript, jQuery, HTML5, CSS3, Bootstrap, React, Responsive UI Design
- Back-End & Programming: Python, Object-Oriented Programming, Web APIs, Database Fundamentals
- Development Practices: Clean & Maintainable Code, Debugging, Performance Optimization, Version Control
- Design Tools: Adobe Photoshop, Adobe Illustrator, UI/UX Design
- Professional Skills: Team Leadership, Project & Event Management, Time Management, Communication

PROFESSIONAL EXPERIENCE

Frontend Developer — Internee.pk *Sep 2025 – Nov 2025*

- Develop responsive, user-focused web interfaces using HTML, CSS, JavaScript, and Bootstrap following industry best practices for maintainability and performance.
- Collaborate with cross-functional teams to implement new features, resolve front-end issues, and ensure consistent user experience across devices.

Python Developer — Growintern *Sep 2024 – Nov 2024*

- Build and debug Python applications, applying strong analytical and problem-solving skills to deliver efficient, well-structured code.

Frontend Developer — InternnCraft *Apr 2024 – May 2024*

- Design and develop responsive web pages and UI components using JavaScript, HTML, and CSS for client-facing projects.

Python Developer — TechnoHacks EduTech *Dec 2023 – Jan 2023*

- Develop Python-based solutions, strengthening core programming fundamentals applicable to back-end and API development.

Web Development — CodSoft *Oct 2023 – Dec 2023*

- Completed front-end and full-stack web development projects, focusing on functional integration and clean implementation.

Frontend Developer — CodeAlpha *Aug 2024 – Sep 2024*

- Delivered front-end development tasks using JavaScript and modern web technologies within set project deadlines.

Administration Lead & Karachi Event Lead — DevQuest PK *May 2025 - Present*

- Lead a team and coordinate cross-functional efforts for community events, demonstrating leadership, organizational ability, and collaborative project delivery.

Summer Internship — ISPR *Jul 2025 – Aug2025*

- Gained professional exposure within a structured team environment, strengthening communication and collaborative problem-solving skills.

PERSONAL PROJECTS

Pet's Paw — Final Year Project (Web & Mobile App)
- Designed and developed a pet care web and mobile application as a final year project, covering front-end interface design and full-stack functionality for pet owners and service providers.

Movie Management System
- Built a database-driven movie management system to handle movie records, bookings, and data management using structured database design principles.

ATM Machine Simulation
- Developed an ATM machine simulation applying object-oriented programming (OOP) concepts including classes, encapsulation, and modular design.

Jumping Jack Game
- Created an interactive Jumping Jack game for a Digital Logic Design (DLD) project, applying logic design and programming fundamentals.

Hair Styling Website
- Designed and developed a hair styling services website for an ICT project, focusing on responsive layout and visual presentation using HTML and CSS.

Basket of Gold Events
- Designed and developed a responsive event-booking website using HTML and CSS — a one-stop platform for browsing and selecting events such as birthdays, engagements, and cultural festivals.

The Art Gallery
- Built a web-based gallery showcasing visual artwork (paintings, sculptures, photography), with focus on clean, user-friendly front-end design.

EDUCATION

BS, Computer Science — Jinnah University for Women *Feb 2022 - Dec 2025*

Diploma, Information Technology — Aptech Computer Education *Jul 2020 - Dec 2021*

Inter, Computer Science — Sir Syed Govt Girls College *May 2017 – May 2019*

CERTIFICATIONS & ACHIEVEMENTS

- Becoming an AI-First Product Leader — Certified
- Cybersecurity Awareness: Cybersecurity Terminology — Certified
- Speaker/Presenter — 2nd International Conference on Cybersecurity and Digital Defense (ICyDD)
- Web Development — CodeSoft
- Python Development — CodeClause & Growintern
- Introduction to ChromeOS for Education — Google
- Top 1% LinkedIn Creator (566K+ reach) — strong communication and technical content delivery

LEADERSHIP & COMMUNITY

- Organizer, KhiNext'26 — leading large-scale tech event planning for Karachi's tech community.
- Karachi Event Lead & Administration Lead, DevQuest PK — managing cross-functional teams and operations.
- Core Team, TEDxClifton — supporting event strategy, data coordination, and audience engagement.
- Ambassador across 10+ organizations including Google Developer Groups, AveronX, and ConnecToLead.
